LUIGGI GIANFRANCO PAREDES ZAPATA

FullStack Developer | Backend Specialist | Microservices | Cloud Architecture
Lima, Peru | +51 939 379 861 | luiggipdeveloper@gmail.com | linkedin.com/in/luiggipdeveloper | codegito.lat

PROFESSIONAL SUMMARY

Software Engineering student with professional experience building production-grade backend and fullstack systems using NestJS, Spring Boot, and cloud infrastructure. Specialized in microservices architecture, event-driven systems (Kafka), REST API design, and containerized deployments. Proven delivery of SUNAT-compliant e-invoicing platforms and distributed systems in production.

TECHNICAL SKILLS

Backend: NestJS, Spring Boot, Node.js, REST APIs, GraphQL, Microservices, JWT, OAuth2
Frontend: React, Next.js, Angular, Tailwind CSS
Languages: Java, TypeScript, JavaScript, SQL
Databases: PostgreSQL, MySQL, MongoDB, Redis, Prisma ORM
DevOps & Cloud: Docker, AWS, DigitalOcean, CI/CD, GitHub Actions, Linux
Architecture: Clean Architecture, DDD, SOLID, Event-Driven (Kafka), Hexagonal

PROFESSIONAL EXPERIENCE

FullStack Developer | *L & C Financial Tech S.A.C.* Sep 2025 – Feb 2026

- Architected **5+ microservices** with NestJS/TypeScript for a SUNAT-compliant e-invoicing platform
- Built RESTful APIs with **PostgreSQL + Prisma ORM**; containerized with **Docker** and deployed to DigitalOcean
- Improved system **scalability and maintainability** through decoupled microservices and CI/CD pipelines

FullStack Developer | *Fundación CALMA* Jan 2026 – Feb 2026

- Delivered end-to-end features across **NestJS + PostgreSQL** backend and **React + Next.js** frontend
- Integrated microservices architecture enabling **independent deployability** within agile sprints

Backend Developer Intern | *Fundación CALMA* Sep 2025 – Dec 2025

- Designed microservices with NestJS; integrated **Apache Kafka** for async inter-service communication
- Automated backend processes and wrote **unit/integration tests** improving reliability and performance

Founder & Freelance Developer | *CodeGito — codegito.lat* Dec 2024 – Present

- Founded development studio delivering **custom backend/fullstack solutions** with Spring Boot and NestJS
- Full lifecycle: requirements, architecture, development, **cloud deployment**, and maintenance

EDUCATION

B.S. Software Engineering — Universidad Peruana de Ciencias Aplicadas (UPC) Expected 2026

CERTIFICATIONS

Backend Development with NestJS (DevTalles) | **Java Developer** (Hyperskill) | **Scrum Master** (Coursera) | **English B2** (Cambridge)
